## PROSPECTUS.

---

**Charter:** The College of the Sacred Heart was incorporated by the State of Colorado, July 23, 1887, and by an Act of the State Legislature, April 1, 1889, empowered to confer University and Collegiate Honors and Diplomas. It is conducted by the Fathers of the Society of Jesus, and is intended equally for boarders, half-boarders and day-scholars.

**Surroundings:** The College is situated on a beautiful knoll overlooking the Clear Creek Valley. The grounds cover an upland tract of fifty acres, and the prospect is one of lakes and mountains and meadows. The Snowy Range of the Rockies seems quite near, and from Pike's Peak to Long's Peak—a distance of about two hundred miles—the mountains are in full view. The diversified and magnificent scenery, and the opportunity for walks, leave nothing to be desired for the College in point of situation.

**Climate:** The Climate of this region is universally conceded to be the healthiest in the United States. Parents in Massachusetts, California and the far South have sent their children to this College to the great advantage of their health, without the assistance of medical treatment.

**Health and Comfort:** The building is four stories high, while its dimensions are 300 feet in length by 76 feet in width and over 60 in height. The class-rooms, dormitories and study-halls are well lighted and perfectly ventilated; the play-grounds are extensive and beautiful, and there is an abundance of games, both indoor and outdoor. The bath-rooms are supplied with water from the artesian wells of the College. Especial attention is given to the physical development of the students.

### COURSE OF INSTRUCTION.

The Course of Studies is Classical, and is designed to impart a thorough, liberal education. In the accomplishment of this purpose, while the ancient classics hold the first place, the branches of a purely commercial training are not excluded. Besides Latin, Greek and English, the Course embraces Religious Instruction, Mental and Moral Philosophy, Astronomy and Mathematics, Physics and Chemistry, Literature, Elocution, History and Geography, Bookkeeping and Commercial Law; in a word, all the usual branches of a liberal education, rendering a young man fit either for the study of a profession or for the pursuits of a business life. Every student is required to take all the branches taught in the class to which he belongs. But the purely commercial branches being completed within the first four years of the regular course, a student aspiring only to business pursuits may finish his curriculum at the end of the fourth year, when, if after due examination he be found sufficiently qualified, he will be awarded the Commercial Certificate.

**Post-Graduate Course:** The object of this Course is to enable our graduates to further continue their philosophical and literary studies. Attendance, however, is not limited to graduates.

**Academical Degrees—A. B.:** The degree of Bachelor of Arts is conferred upon students who have successfully completed the Classical Course, as outlined in this Catalogue.

**S. B.:** For the degree of Bachelor of Sciences the same examinations are required as for the degree of A. B., with the exception of those in Latin and Greek.

**A. M.:** The degree of Master of Arts is conferred upon those who, having received the degree of A. B. and followed the Post-Graduate Course, after due examination, have been found sufficiently qualified.

**S. M., Ph. B.:** The degrees of Master of Sciences and of

Bachelor of Philosophy are conferred upon those who, having received the degree of Bachelor of Sciences and attended the lectures of the Post-Graduate Course, are deemed, after due examination, sufficiently qualified.

**Modern Languages:** German, Spanish, French and Italian are taught, each by a professor whose vernacular it is.

**Optional Studies:** Optional Studies, such as Modern Languages, Drawing, Music, Shorthand, Typewriting and Telegraphy, if they be taken, become obligatory for a whole term of five months.

**Scholastic Year:** The Scholastic Year consists of but one Session of ten months, beginning on the first Tuesday of September and closing in the last week of June. The session is divided into two terms, one ending about the last week of January, the other about one week before the Annual Commencement Exercises.

**Marks:** One hundred being the highest mark obtainable, *excellence* is expressed by the marks 90-100; *distinction* by the marks 80-89; *satisfaction* by the marks 60-79.

Weekly Marks of the students' conduct, application and recitations are registered in books kept for that purpose, and read publicly in every class and in the study-hall.

At the beginning of each month, Bulletins showing the students' standing in the Teachers' and Prefects' Departments for the preceding month are read publicly in the College Hall, and then forwarded to parents. Parents are requested to examine these Bulletins carefully, and to acknowledge their receipt to the College Authorities. (Fac-simile of Bulletin on page 30.)

During the year Testimonials of good conduct in the Prefects' Department and of proficiency in the Teachers' Department are given to the most deserving.

**Examinations:** At the close of each term there is a

thorough examination, both oral and written, in which the students are examined in all the branches studied during the previous half year. A student failing in any branch at either of the oral examinations is not a full member of his class so long as he does not make up for the deficiency.

Annual promotions are decided by the class-marks of the entire year, combined with those of the semi-annual and annual examinations.

Promotions during the year must be warranted by unusual success.

A student who, at any period of the year, proves himself unfit for his class, will at once be placed in a lower class.

Competitive exercises in one of the various branches of study are given once a month.

**Prizes:** All prizes are decided by the class-marks of the entire year, combined with those of the written and oral examinations. The resulting average must exceed 79.

---

## GENERAL REGULATIONS.

---

**Admission:** Parents, in making application for their children, must state precisely the age of the candidate for admission, and if they be not personally acquainted with some member of the Faculty, they are required to present satisfactory testimonials of his moral character, as the College Authorities decline to receive applicants whose morals are not irreproachable. No one will be admitted for a shorter period than five months.

**Religious Training:** Religious instruction is considered of the first importance in education. Catechism forms one of the regular class recitations.

Difference of creed is no bar to admission. Uniformity of discipline, however, demands of non-catholic boarders

that they should be present and behave properly at all exercises of religion. The practice of monthly confession and communion is insisted upon for Catholic students, and Holy Mass opens the duties and exercises of the day.

**Discipline:** The government of the institution is mild rather than severe; but strict obedience, assiduous application and blameless conduct are positively required of every student. Any serious fault regarding these essential points renders the offender liable to effective correction, and even to dismissal, if this be deemed necessary.

For faults of ordinary occurrence, such as tardy arrival, failure in recitations or minor instances of misconduct, detention after school, some lines to be committed to memory, and low weekly marks, are usually found sufficient penalty.

The students are forbidden to leave the College grounds without permission.

No student is allowed to have books or publications which have not been approved by the Prefect of Studies, or keep anything under lock and key. Valuable objects should, therefore, be deposited with the College Authorities.

**Politeness:** The College expects from all its students the manners and deportment of perfect gentlemen. Politeness is deemed a very important element of education. On the premises, tobacco-chewing, low or profane language, rough, uncouth games of any sort, are not tolerated. An instruction on politeness is given to the students every week.

**Letters:** The College Authorities reserve to themselves the discretionary power of inspecting letters, books, etc., either directed to the pupils or sent by them.

**Visitors:** Visits may be paid to the students on Sunday afternoons, from one to five o'clock. Parents and friends

are most earnestly requested not to call at other times, unless it be strictly necessary. No visitors will be allowed to see a student, unless they are known to the College Authorities, or come with a letter of introduction from the parents or guardians.

**Weekly Holiday:** No classes are taught on Tuesday and Thursday afternoons, unless the preceding or following day is a holiday.

#### HALF-BOARDERS AND DAY SCHOLARS.

The College Authorities consider themselves bound to procure, as far as possible, the advancement of all their students; but if the parents or guardians fail to comply with the College regulations, it will be impossible to insure success.

Parents and guardians are accordingly exhorted to see that their sons or wards devote at home three hours daily to class study. The next duty which should claim the attention of students and the vigilance of parents or guardians, is punctuality. Attendance from the *first day* of the session, attendance *every day*, attendance the *whole day* is strictly required. Frequent absence or tardiness lowers a student's class-standing so rapidly that the Faculty prefer he should be withdrawn entirely.

Half-boarders study, dine and lunch with the boarders. Half-boarders and day scholars must not be kept at home, nor detained on school days, except for grave reasons. In case of absence or tardiness, a note of excuse from parents or guardians is invariably required.

It is strictly forbidden to take out letters or go on errands for boarders.

The classes begin at 8:30 A. M. and continue until 11:15. They are resumed at 2:00, and continue until 4:15 P. M.

## REMARKS.

No deduction will be made for absence or withdrawal from College, except on account of protracted sickness or dismissal, and in these cases no deduction will be made for a shorter period than one month.

Parents desiring their sons to be sent home, must give timely notice, settle all accounts, and forward the necessary traveling expenses.

The College will not be responsible for any article of clothing or for books left behind by any student of the Institution.

Any injury done the College building or furniture, besides subjecting the offender to punishment, will be repaired at the expense of the parents.

Books, stationery and medicines are furnished by the College at current prices. No money, however, will be advanced by the Institution for books, clothing or other needs of the students.

Pocket money, if any be allowed, should be left in the hands of the Treasurer, to be given according to the direction of the parents. The weekly amount must not exceed twenty-five cents. *In no case will any advance be made beyond the deposit.*

#### NECESSARY ARTICLES ON ENTRANCE.

---

## COMMERCIAL STUDIES.

---

The Course of Bookkeeping and Commercial Law, though secondary, is complete in itself, and covers a period of three years, as follows:

First Year.—Principles of Double Entry.

Second Year.—These principles applied in the class room by actual business transactions. Banking.—Single Entry Explained.

Third Year.—Commercial Law, entire, with cases.

Text-Books. — Bookkeeping, the Supply and Demand System. Commercial Law; Clark's Commercial Law.

---

## OPTIONAL STUDIES.

---

**Modern Languages:** The study of Modern Languages, though optional, forms one of the most salient features of the Institution. German, Spanish, French and Italian are taught each by a professor whose vernacular it is, and the system of instruction is chiefly practical.

**Drawing:** The Course of Drawing is arranged with the intention of preparing students for any university, technical college and calling, in which a knowledge of scientific draughtsmanship is required.

First Year. Practical Plane Geometry and Elementary Solid Geometry.

Second Year. Projection and Perspective, with Engineering and Architectural details.

**Shorthand:** The Course of Shorthand includes all the principles of the art. It is taught three times a week, and is completed in forty lessons.

**Telegraphy:** For the Telegraphic Department, a room is provided and equipped with line instruments. Instruction is given five times a week. A good knowledge of the subject may be acquired in one year.

**Typewriting:** The machines in use are the new Remington and the Caligraph, with the latest improvements. Instruction regarding their manipulation is given three times a week.

**Music:** This department is complete in all its branches, and is conducted by able professors. The College Orchestra and the St. Cecilia Society, which have always enlivened our public and private entertainments, prove that the College Authorities encourage this study.
